

BELT BARRIER

A secure and easy method of cordoning off areas

Introduction

In response to many operators requesting a temporary or permanent barrier that could withstand the harsh offshore environment, we have designed a full offshore specification belt barrier.

Features

- Secure method of cordoning off areas
- Compact and robust
- Can mount to scaffold pole
- Use with specifically designed mobile base post
- High visibility red/white chevron
- Choice of S-hook or scaffold clamp attachment
