

SAFELIFT OFFSHORE LTD

CAPABILITY STATEMENT

Company Overview

Safelift Offshore Ltd are deck & material handling equipment manufacturers, established in 1994 and privately owned, providing a unique range of specifically designed products along with a full range of complementary services including technical procurement, maintenance, surveys & training

Company Vision

Safelift Offshore Ltd aim to further enhance our reputation as being the "go to" company for all deck & material handling equipment requirements for energy industries. Our core objective is to further develop our engagement with new markets or emerging technologies providing innovation & solutions to meet their specific needs or to help overcome their unique technical challenges

Core Competencies

The efficient design, manufacture & supply of all types of manual and mechanical handling equipment and associated services that fully meet our clients' specifications for quality, product performance and delivery

- Ex. stock delivery of an extensive standard range of products to fulfil our client's day-to-day operational requirements
- Full technical procurement service for new Greenfield and Brownfield material handling equipment packages including specialist items & ATEX approved products for hazardous area use
- Experienced & fully resourced engineering support & project management functionality
- Equipment refurbishment, re-certification & rental services provision
- Training course delivery capability on an in-house or on-site basis
- Equipment commissioning, hook-up & installation support

Approvals & Management Systems

Quality Management Certified to ISO 9001 (2015)

Occupational Health & Safety Acc. ISO 45001 (2018)

Environmental Management Acc. ISO 14001 (2015)

Products That Make a Difference

SAFELIFT OFFSHORE LTD

RECENT PROJECT EXPERIENCE LIST

Recent Oil & Gas Project Experience List

End User / Operator: BP Azerbaijan
Customer: SOCAR-KBR JV
Project: Azeri Central East Platform
Product: Full New-Build Handling Equipment Package
Discipline: Technical Procurement
Delivery: Current

End User / Operator: Boskalis Subsea Services Ltd
Customer: Same
Project: Polar Onyx [North Sea]
Product: 2.0 Te Crane Fork For Quayside Loading Ops
Discipline: Equipment Rental
Delivery: Current

End User / Operator: BW Offshore Catcher (UK) Ltd
Customer: Same
Project: BW Catcher FPSO [North Sea]
Product: Bespoke Membrane Transportation Cages
Discipline: Design, Engineer, Manufacture & Supply
Delivery: Current

End User / Operator: Saipem Mexico
Customer: Same
Project: Pioneer Jack-Up Drilling Rig
Product: Cargo Basket, Containers & Gas Racks
Discipline: Standard Product Supply
Delivery: June 2021

Recent Renewables Project Experience List

End User / Operator: Kincardine Offshore Wind (KOWL)
Customer: Vestas Offshore Wind
Project: Kincardine Offshore Wind Farm (UK North Sea)
Product: Inspection & Testing Services Incl. NDT / PAT
Discipline: Inspection, Re-Certification & Test Services
Delivery: Current

End User / Operator: SSE Renewables
Customer: Petrofac Emirates LLC
Project: Seagreen Converter Platform (UK North Sea)
Product: Access, Height Safety & Handling Equipment
Discipline: Technical Procurement
Delivery: 2020 / 2021

End User / Operator: TenneT
Customer: Petrofac Emirates LLC
Project: HKZ Alpha / Beta Converter Platforms (Dutch North Sea)
Product: Access, Height Safety & Handling Equipment
Discipline: Technical Procurement
Delivery: 2020 / 2021

Recent Davit Crane Project Experience List

End User / Operator: Equinor ASA
Customer: Single Buoy Moorings Inc.
Project: Johan Castberg FPSO (Barents Sea)
Product: 1.36 Te ATEX Zone 1 Rated Davit Crane
Discipline: Design, Engineer, Manufacture & Supply
Delivery: 2020

End User / Operator: Northern Offshore Drilling Ops
Customer: Same
Project: Energy Edge & Enticer Jack-Ups (Middle East)
Product: 2.5 Te Under Braced Davit Crane
Discipline: Design, Engineer, Manufacture & Supply
Delivery: 2020
