

ADDITIONAL BENEFITS

PAPERLESS

We operate a completely paperless system to record and hold your information, and it's available to access 24/7. It's secured using the very latest software and security measures and is simple to use. So your data is always just a few clicks away, but will never be lost or stolen.

COLOUR CODING

Does your company need a simple system to visually indicate the certification status of equipment? Safelift Onshore Ltd have developed a unique colour coding board to save your business time and money. We will change the colour indicator in line with its current colour code, and display the next examination date.

FAST TRACK SERVICE

Running out of time? Don't worry, we can get you certified within 24 hours.

RFID TRACKING

You also have the option to upgrade to our latest RFID technology that enables quicker inspections to take place through tablets or smartphones.

5 STEPS TO BECOMING COMPLIANT

TEST & INSPECTION

COMPLETE INSPECTION SOLUTION
ENSURING LOLER & POWER COMPLIANCE.

WWW.SAFELIFTONSHORE.COM

YOUR SAFETY GUARANTEED.

WHO WE ARE

We are the lifting equipment inspection, service and repair specialists. We've been carrying out SI 2307 LOLER and SI 2306 PUWER compliance since 2008, earning ourselves a reputation for quality and dependability.

We're based in the north-east of Scotland, and provide localised coverage to keep your business moving.

WHY CHOOSE US?

Wherever your forklift, crane or other lifting equipment may be, we can come to you – on-site or at your headquarters. We offer expert advice and deal with all forms of lifting devices, and we're trained to the highest degree to ensure your workplace is as safe as possible.

All of our fully accredited certification can be issued in as little as 24 hours of a passed inspection.

ASSOCIATIONS

We are part of the most trusted groups and associations to provide you with an even better level of service.

WHAT WE OFFER

Supply of personnel.

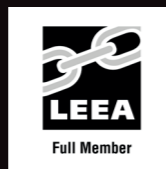

Supply of replacement equipment.

An experienced account manager as your single point of contact.

Online customer portal.

SPECIALIST INSPECTION SERVICES RANGE

LOOSE LIFTING EQUIPMENT

Fully LEEA approved examiner inspections on all types of loose lifting and rigging equipment.

OVERHEAD CRANES

Certified crane inspection for all types of overhead, gantry and fixed jib cranes.

FORKLIFTS

Fully CFTS accredited forklift examinations in accordance with LOLER and PUWER.

MOBILE ELEVATED WORK PLATFORMS (MEWPS)

Fully CAP certified examiner inspections of access machines, order-pickers and hop-ups.

TAIL LIFTS

Fully accredited tail lift examinations in accordance with LOLER and PUWER.

LADDERS

Ladder Association certified ladder examinations in accordance with PUWER.

PAT TESTING

Inspection and testing of all types of electrical equipment by City & Guilds certified inspectors.

HAND ARM VIBRATION TESTING (HAVS)

Certified vibration testing and analysis for almost all types of hand tools.

LOLER & PUWER COMPLIANCE

All lifting equipment is required by law to be examined regularly to make sure it is safe. Non-compliance can result in substantial fines being issued.

All of our thorough examinations are fully accredited and are guaranteed to fulfil your obligations under LOLER and PUWER.

WHAT IS DEFINED AS "LIFTING EQUIPMENT"

"WORK EQUIPMENT FOR LIFTING OR LOWERING LOADS INCLUDING ITS ATTACHMENTS USED FOR ANCHORING, FIXING OR SUPPORTING IT"
